Mr. Ivan Hulka

Vestra Inet

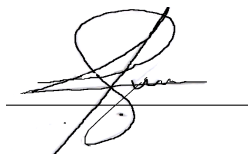

**Exceptional service and always professional**

We've recently hired Vestra Inet to build our new website and manage our SEO campaign. After interviewing several other companies, we choose Vestra Inet. Their approach and professionalism made them stood out from the rest.

Ivan was thouroughly prepared at every meeting and had the answers, statistics and examples of what we could do and wanted to do. He understood the vision we had with the new website; and Vestra Inet has done a fantastic job. Our new website was build and launched in no time at all!

We've received positive feedback from our new and existing customers on our new website. Not only does our website look clean and streamlined, it is now an effective tool to acquire new business.

We look forward to a long and productive relationship between HC Electrical Services Ltd and Vestra Inet. With this said, we highly recommend Vestra Inet and for all website and internet solutions.
